## EDUCATION

**Independent Study**  Sep 2022 - Present
Self -employed

- Under the guidance of a mentor, I have learned Bootstrap, SaSS, and basic JavaScript. Currently, I am working on an e-commerce shopping website
- Consolidating knowledge in practice and getting certificates in Intermediate JS, DOM, OOP, getting to know APIs better
- Experience in debugging, modifying existing code and writing code from scratch
- Experience of Git
- Problem-solving skills and excellent attention to detail

**Level 3 Apprenticeship, Software Developer**  Oct 2021 - Oct 2022
Bournemouth and Poole College

I have discovered fundamental topics such as Accessibility, Software Development Methodologies, Software Architecture, Software Testing and etc. It allowed me to understand deeply how to build E-commerce websites and web applications.

- Web design (including UX/UI)
- Create mock-up websites
- W3C coding practice
- Creating layered design concepts using Figma
- Testing websites, finding bugs and fixing it

## PROFESSIONAL EXPERIENCE
